

Janish Singh

IT Support Specialist | Network Administration Student

Red Deer, Alberta | +1 (778) 891-4977 | janishpreet.singh.777@gmail.com

Education

Computer Network Administration

Jan 2024 – Jun 2025

Red Deer Polytechnic (RDP), Red Deer, Alberta

Technical Skills

- **Operating Systems:** Windows Server, Windows 10/11, Linux installation, troubleshooting, and desktop support.
- **Networking:** TCP/IP, DHCP, DNS, VPN, Routing & Switching, VLANs, Wireshark, Cisco Packet Tracer.
- **Microsoft & Systems Administration:** Active Directory, Group Policy, Domain Controller Administration, Office 365, PowerShell.
- **Virtualization & Cloud:** VMware, Microsoft Azure, Virtual Networks.
- **Technical Support:** Hardware troubleshooting, software installation & configuration, desktop support, printer and peripheral troubleshooting.
- **Security:** Network security fundamentals, firewall configuration, secure remote access.

Projects

Windows Server & Active Directory Lab Environment

- Configured Active Directory Domain Services, DHCP, and DNS in a Windows Server environment.
- Created and managed users, groups, and Group Policy settings for centralized administration.
- Performed Windows operating system deployment and network-based installations.

Network Security & Traffic Analysis

- Used Wireshark to capture and analyze network traffic for troubleshooting and security analysis.
- Investigated ARP packet behavior and common network communication vulnerabilities.

Cisco Networking & Infrastructure Simulation

- Built and configured virtual network topologies using Cisco Packet Tracer.

- Configured routers, switches, IP addressing, and network connectivity in simulated enterprise environments.

Microsoft Azure Virtual Networking

- Designed and deployed Azure virtual networks and basic cloud infrastructure components.
- Configured network connectivity and tested virtual machine communication.

Certifications

Studying for Cisco Certified Network Associate (CCNA)

CompTIA A+

Professional Summary

Motivated IT support and network administration alumni from Red Deer Polytechnic with hands-on experience in Windows Server administration, Active Directory, networking, troubleshooting, and virtualization through academic and lab environments. Skilled in configuring DHCP, DNS, routers, switches, and supporting Windows systems. Strong problem-solving abilities with a customer-focused mindset and a passion for learning new technologies.
